

## Registered Nurse (Bengaluru)

### CLOUDPHYSICIAN

Cloudphysician is a healthcare company reimagining the delivery of critical care through patient-centric solutions. We use our advanced technology, designed and developed in-house, to increase access to care, all across the globe.

Our Care Center, based in Bangalore, is staffed 24/7 by a highly qualified and trained critical care team that includes super-specialist doctors, nurses, dieticians, and pharmacologists. The clinical team uses our proprietary platform, RADAR, to connect to hospital ICUs to oversee and manage the care of critically ill patients across multiple regions. RADAR, built by our team of technology experts, incorporates automation, computer vision, real-time video, and data analytics to help expert care providers connect to and provide care to patients.

As of March 2022, we have cared for nearly 40,000 intensive care patients across 16 states in India and saved numerous lives. Learn more at: [www.cloudphysician.net](http://www.cloudphysician.net).

### JOB DESCRIPTION

The Cloudphysician command center monitors the bedside ICUs with real-time live video. The junior RN nurse's job is to manage these patients and document their vital signs hourly, check ventilator settings, GCS, and document the same if anything in abnormal values or seriously escalate it to CCRN. Documentation and update of lab and radiology reports daily or on an available basis. For any patient care related escalation inform the Critical care Registered nurse (CCRN) and coordinate with bedside nursing staff.

### PREFERRED QUALIFICATIONS

- GNM Nursing/B.Sc Nursing/M.Sc Nursing
- Freshers or preferably with at least 6 months or more of hands-on experience in well-reputed hospital ICUs or wards.
