

Senior Critical Care Registered Nurse (CCRN)

CLOUDPHYSICIAN

Cloudphysician Healthcare Pvt Ltd is a healthcare company that aims to transform the delivery of critical care by leveraging technology. Shortage of trained medical personnel and gaps in the delivery of high-quality critical care is a universal problem, and this shortage is particularly acute in the Indian healthcare system.

To learn more about the kind of work that we do, visit us at www.cloudphysician.net.

Job Description

The Cloudphysician command centre monitors the bedside ICUs with real-time live video. The tele-critical care nurse's job is to monitor these patients and document their progress, troubleshoot ICU issues, coordinate bedside nursing care in accordance with global standards and escalate issues to the intensivist who also will be at the command centre 24/7.

Candidates interested in ACLS/BLS training, research, nurse practitioner profiles and administrative roles are strongly encouraged to apply.

Structure of shifts

Below is a monthly breakdown of the minimum number of shifts a CCRN would cover:

- 10 day shifts and 7 night shifts from the Cloudphysician Command Center located near Mekhri Circle in Bangalore. Each command centre shift is 12 hours, each day shift is from 7.30am to 7.30pm, and each night shift is from 7.30pm to 7.30am.

- Extra shifts beyond the minimum required are available which will be additionally compensated.

- Once at Cloudphysician CCRNs are required to complete AHA certified ACLS and BLS training successfully and other critical care training modules within 3 months from joining date. (All courses and training will be provided by Cloudphysician)

Minimum Qualifications

GNM Nursing/B.Sc Nursing/M.Sc Nursing with a minimum of 5 years of hands-on ICU experience in well-reputed hospital ICUs.
